

# **CSE2015 – Internet Programming and Web Technologies**

Digital Assignment 1

Faculty : Prof. Sureka.S

Digital Assignment as Mini-Project: “Develop an Innovative / Creative Web Application/Website”

TEAM MEMBERS :

P Lohit Jayaprakash – 19BDS0098

Nikhitha Perapola – 19BDS0125

Jyothi K C – 19BDS0144

Bhumika Atluri – 19BDS0109

## **FOOD WEBSITE**

## **BINGE WITH ME**

# FRONT END

## **ABOUT PROJECT:**

BINGE WITH ME is a food website where users can look up recipes, share their recipes and form a community where all kinds of food and kitchen based conversations take place.

It consists of a homepage, a page for introducing recipes, a page consisting of all recipes, a community page where users can pose questions and provide answers for existing questions asked by many other users

The base templates are html CSS and JavaScript for certain dynamic mechanisms to take place in webpages.

Frameworks like bootstrap, w3.css and SASS pre-processors are used for more readable and efficient code and an overall better looking website with good user experience.

## PESTO PIZZA

★★★★★

**Prep:** 10 mins  
**Cook:** 7 mins  
**Serves:** 4 Servings

01. Roll out the Best Pizza Dough recipe to preserve the dough. Roll out the pizza 1/2 inch thick and 12 inches long.
02. Preheat your oven to 475°F and preheat the pizza stone.
03. Spread the pesto over the pizza. Add the cheese, tomatoes, and red pepper flakes. Bake for 7-10 minutes. Let the pizza cool for 5 minutes before slicing. If you don't have a pizza stone, you can use a pizza pan. Bake for 10-12 minutes. Let the pizza cool for 5 minutes before slicing. If you don't have a pizza stone, you can use a pizza pan. Bake for 10-12 minutes. Let the pizza cool for 5 minutes before slicing.
04. Cut the pizza into 8 slices. Serve with a side of fresh basil.
05. Use the pizza for a variety of other dishes. You can use it for a pizza, a sandwich, or a salad.
06. If you're going to use the pizza for a sandwich, you can use it for a sandwich. If you're going to use the pizza for a salad, you can use it for a salad.

### INGREDIENTS

1 ball Best Pizza Dough  
Salt  
1/2 cup Best Basil Pesto  
1 handful shredded mozzarella or pizza blend  
2 Roma tomatoes  
1/2 cup grated Parmesan cheese  
1/2 teaspoon crushed red pepper flakes  
2 Roma tomatoes

## CHOCOLATE CUPCAKES

★★★★

**Prep:** 5 mins  
**Cook:** 30 mins  
**Yields:** 9 servings

01. Preheat the oven to 180°C, 350°F and place the cupcake cases in the muffin tin.
02. Mix the eggs, oil, water and cake mix. Greasy fingers are a likely by-product, so wash your hands for 30 seconds with soap and running water.
03. Place the chocolate frosting in a separate small bowl. In the center of the oven for 10-15 minutes, until it is rounded in the middle and the center of a chocolate cream sits about 1cm from the top of the cupcake.
04. Remove the tin from the oven. Using a spoon, scoop the chocolate into a bowl and pour the hot cream over the top. The soft hot chocolate will melt into the frosting, but it will not reach the temperature.
05. Follow up with a little of the center of the cupcake and fill with a mix of chocolate, vanilla, lemon and all the cupcake. When the cream is set, add the chocolate cream. The chocolate cream is the perfect choice, as before. In the cupcake, the cream is a combination of the chocolate.
04. Place the cream into the cupcake and decorate with the chocolate cream or a perfect finish.

### INGREDIENTS

1 box Betty Crocker™ Devil's Food Cake Mix  
45 ml vegetable oil  
1/2 teaspoon cumin  
50 ml water  
2 medium free range eggs  
60 g soft butter  
5 g double cream  
125 g dark chocolate, chopped

## FRENCH FRIES

★ ★ ★

Prep: 25 mins  
Cook: 30 mins  
Yields: 8 Servings

01. Peel and wash the potatoes. Then cut them into sticks by cutting the potatoes in 4 or 2 equal pieces, and then cutting each piece into 1/2 in.
02. Place them into large bowl and mix with cold water. Allow them to soak 5 to 7 hours. You can also soak them in the fridge and it'll then soak overnight.
03. When you're ready to make the fries, drain off the water and dry the potatoes on a towel for a while. Then, drain the potatoes on paper towels to dry them.
04. Heat a few inches of oil in a heavy pot or a large skillet. If you're a beginner, cook the potatoes until soft. If you're a pro, you can cook them until they're golden brown. If you're a pro, you can cook them until they're golden brown.
05. Once all the potatoes have been fried at 350 degrees, drain the fries onto a paper towel. If you're a pro, you can cook them until they're golden brown. If you're a pro, you can cook them until they're golden brown.
06. Sprinkle with salt and serve.

### INGREDIENTS

5 pounds russet potatoes  
Vegetable or peanut oil, for frying  
See salt

## CAULIFLOWER TACO'S

★★★★★

Prep: 10 mins  
Cook: 36 mins  
Yields: 8 Servings

01. Grab the Crispy Breaded Cauliflower (about 40 minutes total) and the remaining items to complete the recipe below.
02. In a large pot, bring 4 cups of water and 1/2 teaspoon salt to a boil. Add the cauliflower florets and cook for 10 minutes. Drain the cauliflower and let it cool for 5 minutes. Then, add the cauliflower to a bowl and toss with 1/2 cup of olive oil and 1/2 cup of salt.
03. Preheat the oven to 400°F for 10 minutes. Line a large sheet pan with parchment paper and place the cauliflower florets on the pan. Bake for 20 minutes.
04. In a large bowl, combine the cauliflower, beans, cheese, and cilantro. Toss well and serve with the salsa and lime wedges.
05. Serve the cauliflower tacos on a plate with the salsa and lime wedges. Enjoy!
06. The cauliflower tacos are best served hot, but they can be reheated in the oven for 10 minutes. Enjoy!

### INGREDIENTS

1 recipe Crispy Breaded Cauliflower  
15-ounce can vegetarian refried beans  
1/2 teaspoon cumin  
1 handful shredded mozzarella or  
pizza blend  
2 cups red cabbage, shredded  
2 limes (1 for the cabbage & 1 to serve)  
8 corn tortillas  
Fresh cilantro, for garnish

# BINGE WITH ME

[ABOUT](#)[RECIPES](#)[COMMUNITY](#)[SIGN UP](#)

I received my lemon tree today and the box clearly dates not to put it sideways. I received it with the entire tree almost out of the container and r.

My lemon tree came today. The box clearly states not to place sideways. It had all of the roots exposed as all of the soil was just about out of the container. I'm so disappointed and the tree is a \$500 tree! Not sure it'll survive. We help. This is so frustrating.

<H5> BINGE WITH ME is a food website where users can look up recipes, share their recipes and form a <br><br>community where all kinds of food and kitchen based conversations take place.  
It consists of a homepage, a<br><br> page for introducing recipes, a page consisting of all recipes, a community page where users can pose<br><br> questions and provide answers for existing questions asked by many other users  
The base templates are<br><br> html css and javascript for certain dynamic mechanisms to take place in webpages.  
Frameworks like <br><br> bootstrap, w3.css and SASS pre processors are used for more readable and efficient code and an overall<br><br> better looking website with good user experience.</H5>

## ROUTER HANDLING (CONTROLLER) CODE FOR THE USER AUTHENTICATION :

Code:

```

const express = require('express')
const User = require('../models/users')
const auth = require('../middleware/auth')
const router = new express.Router()

//Controller for getting logged in profile
router.get('/users/me', auth, async (req, res) => {
  res.send(req.user.getPublicProfile())
})

// router.get('/users/:id', async (req, res) => {
//   const _id = req.params.id

```

```

//      try {
//          const users = await User.findById(_id)
//          if(!users)
//          {
//              return res.status(404).send()
//          }
//          res.send(users)
//      } catch (e) {
//          res.status(500).send(e)
//      }
//  })

//Controller for signing up
router.post('/users/signup', async (req, res) => {
    const user = new User

    user.fname = req.body.fname
    user.lname = req.body.lname
    user.email = req.body.email
    user.password = req.body.password

    try{
        await user.save()
        const token = await user.generateAuthToken()
        res.status(201).send({ user , token })
    } catch (e) {
        res.status(400).send(e)
    }
})

//Controller for logining in
router.post('/users/login', async (req, res) => {

    try{
        const user = await User.findByCredentials(req.body.email, req.body.password)
        const token = await user.generateAuthToken()
        res.send({ user: user.getPublicProfile(), token })
    } catch (e) {
        res.status(400).send(e + ' ')
    }

})

//Controller fo login out
router.post('/users/logout', auth, async (req, res) => {
    try {
        req.user.tokens = req.user.tokens.filter((token) => {

```

```

        return token.token !== req.token
    })
    await req.user.save()
    console.log('logout')
    res.send()
  } catch (e) {
    res.status(500).send()
  }
})

//Controller for logging out everywhere
router.post('/users/logoutAll', auth, async (req, res) => {
  try {
    req.user.tokens = []
    await req.user.save()
    res.send()
  } catch (e) {
    res.status(500).send()
  }
})

module.exports = router

```

## OUTPUT:

## USER INPUT

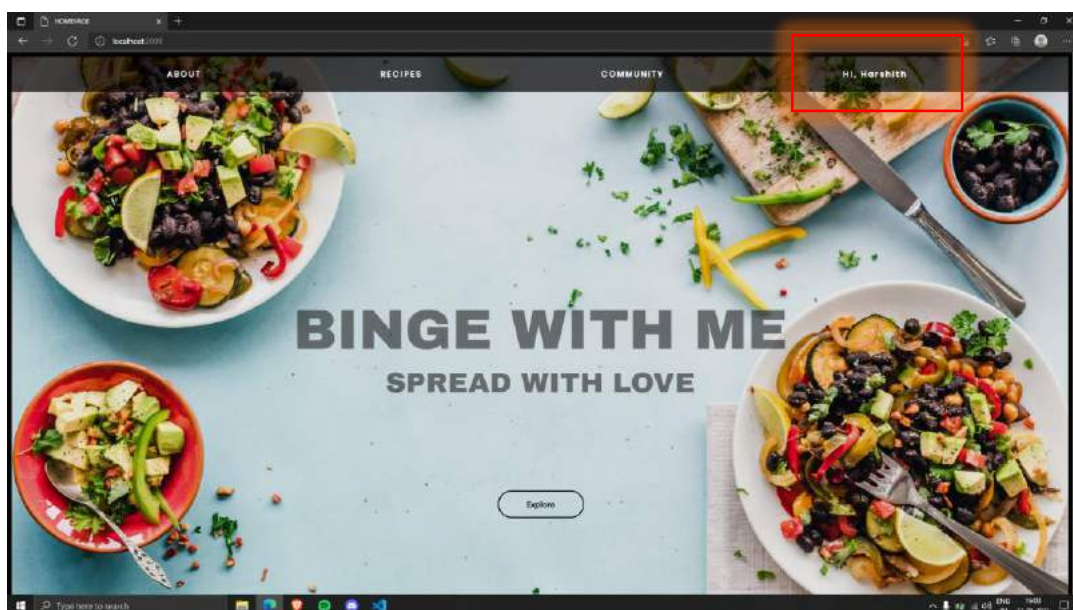

### USER DATA WHICH IS STORED IN DB

The screenshot shows the MongoDB Compass application. At the top, there are tabs for 'Local MongoDB', 'localhost:27017', and 'FoodPage'. Below the tabs is a command bar containing the query: `db.getCollection('users').find({})`. The main area displays a table of documents from the 'users' collection. The table has columns: `_id`, `tokens`, `fname`, `lname`, `email`, `password`, and `_v`. There are 3 documents listed.

	_id	tokens	fname	lname	email	password	_v
1	ObjectId('6...')	[ 1 element ]	manya	lohitia	manya@gmail.com	\$2\$04\$xcuEg2DwB8zNH50K1gk2y00QmF7FicwK5nd/29vCDLfbSLfW9e	1
2	ObjectId('6...')	[ 1 element ]	bhumi	ka	bhumika@gmail.com	\$2\$04\$9YXv79hIBUlyUwJNXo8evW8SSwsoCg/3g/dgGhgPmc0099eAh2	1
3	ObjectId('6...')	[ 1 element ]	harshath	c	hash@gmail.com	\$2\$04\$VWVRK3WWtxcty1zZHgB1edQmFs0BxQJ/L9THNvA:4iG:8xKQjQy	1

### Focaccia, Pizza, and Garlic Butter

Hey! Over the weekend I'm going to make Pizza using the Overnight dough from Ken Forkish's "Flour Water Salt Yeast". I don't need 5 12-inch pizzas, so I'm going to use some dough to make focaccia. Will it turn out OK without olive oil added to the original dough? It should be about 700 grams. I'd also like to make a buttery garlic sauce (I'm not quite sure what to call it) to brush on the crust of the pizza before baking it. Does this sound nice? ~1/4 cup olive oil ~1/2 cup butter ~2 cloves garlic ~1/2 tsp hot pesto ~3 tbsp grated parmesan ~1 tbsp dried oregano ~ black pepper ~fresh parsley, finely chopped if those measurements would work, how should I put it together? Gammer everything in a small pot? Or melt the butter in a pan, add the garlic and herbs, and then mix it with the oil after that?

Post comment

The bread dough will handle better and the baked bread will last longer with oil added. (Maybe add it to remaining dough after you make pizza.) As for the garlic sauce, I would cook it only a short time or not at all, as the ingredients will cook during the baking.

delete

Thank you! If I make the garlic sauce today (Thursday) and keep it airtight in the fridge, will it still be fresh on Sunday?

delete

The sauce will keep better, about 3 or 4 days in the fridge if you cook it before storing it. Raw sauce with garlic and oil can breed some noxious material (bacteria, if I remember rightly). I had recommended no cooking of sauce if you were going to bake it immediately the pizza.

## Focaccia, Pizza, and Garlic Butter

Hi! Over the weekend I'm going to make Pizza using the Overnight dough from Ken Forkosh's "Flour Water Salt Yeast". I don't need 5.12-inch pizzas, so I'm going to use some dough to make Focaccia. Will it turn out OK without olive oil added to the original dough? It should be about 700 grams. I'd also like to make a buttery garlic sauce (I'm not quite sure what to call it) to brush on the crust of the pizza before baking it. Does this sound nice? - 1/4 cup olive oil - 1/2 cup butter - 2 cloves garlic - 1/2 tsp basil pesto - 3 tbsp grated parmesan - 1 tbsp dried oregano - black pepper - fresh parsley, finely chopped If those measurements would work, how should I put it together? Sauteer everything in a small pot? Or melt the butter in a pan, add the garlic and herbs, and then mix it with the oil after that?

## CAULIFLOWER TACO'S

★★★★★

Prep: 10 mins  
Cook: 20 mins  
Yields: 4 servings

01. Shred the Cauliflower florets and Beans (approx 40 minutes total) use the same recipe as the cauliflower recipe.

02. Using your hands mix the cauliflower and beans with 1/2 teaspoon of oil and a pinch of salt. Mix well. The cauliflower should be evenly coated in oil and salt. The beans should be evenly coated in oil and salt.

03. Preheat the oven to 400°F for 10 minutes. Mix the cauliflower and beans in a large bowl. Add the oil and salt. Allow the cauliflower and beans to cook for 10 minutes.

04. Quickly sauté the cauliflower and beans in a large skillet. Sprinkle with salt and pepper. Cook for 10 minutes. Add the cauliflower and beans to the skillet. Cook for 10 minutes.

05. Mix the cauliflower and beans in a large bowl. Add the oil and salt. Allow the cauliflower and beans to cook for 10 minutes. Add the cauliflower and beans to the skillet. Cook for 10 minutes.

04. The cauliflower and beans should be evenly coated in oil and salt. Mix the cauliflower and beans in a large bowl. Add the oil and salt. Allow the cauliflower and beans to cook for 10 minutes. Add the cauliflower and beans to the skillet. Cook for 10 minutes.
